Education Background

Wenzhou Kean University 09/2020-06/2024

- ✧ Bachelor of Science in **Computer Science and Technology**, minor in **Math and Applied Math**.
- ✧ **GPA**: **3.316**/4.0.
- ✧ **Awards**: Second Prize in WKU's Computer Seminar Project Creative Speech.

Academic Projects

An Exploration of Methods for Facial Emotion Recognition 03/2023-06/2023

- ✧ Revised and validated existing models and algorithms to ensure operation;
- ✧ Enhanced the mathematical formulas to guarantee their applicability to novel data sets, resulting in the creation of a refined model;
- ✧ Assumed responsibility for findings in an optimized manner, particularly focusing on enhancing visualization techniques.

Developing Software for Knapsack Problem Solving by Traveling Salesman Problem Resolution 09/2022-09/2023

- ✧ Conducted a comprehensive exploration of the literature in the realm of backpack problem and traveling salesman problem, aiming to unveil and establish the intricate similarities and correlations between these two domains;
- ✧ Refined the algorithm of the traveling salesman problem to render it applicable for solving the knapsack problem, leveraging the discovered similarities between these two domains;
- ✧ Delved into the intricate design and meticulous implementation of this enhanced algorithm in subsequent studies.

Cuisine Dice 10/2020-11/2022

- ✧ Developed a sophisticated web application encompassing diverse-based navigation, facilitating users in effortlessly selecting restaurants;
- ✧ Composed comprehensive requirements documents adhering to project specifications;
- ✧ Crafted a WeChat mini program utilizing the advanced capabilities of the WeChat program development tool.

Genealogy Construction based on Java and Multi-tree Structure 10/2021-11/2021

- ✧ Developed a sophisticated program that simulates the management of family trees, enabling users to effortlessly navigate through multi-tree structures and access personal information of both ancestors and descendants;
- ✧ Assumed responsibility for meticulously designing and thoroughly testing every aspect of the program's functionality.

Remote Device Control and Light Switch based on Mobile Application Implementation 09/2021-10/2021

- ✧ Developed a cutting-edge remote-control system that enables seamless connectivity to the system via a mobile phone, thereby achieving the remarkable functionality of remotely controlling light switches;
- ✧ Completed this groundbreaking achievement using the ingenious utilization of ESP8266 WIFI module and SG90 steering gear, coupled with meticulously crafted Arduino programming;
- ✧ Adopted a research approach encompassing the seamless integration of diverse cutting-edge technologies and sophisticated hardware components, including state-of-the-art wireless communication modules, advanced steering gear control systems, intricate programming techniques, as well as the development of innovative mobile phone applications.

Internships

TA, **Kean-University** 03/2023-05/2023

- ✧ Communicated with the professor and complete the picture collection of the professor's research projects;
- ✧ Conducted an online meeting with the professor and communicated the project progress;
- ✧ Assisted the professor in course teaching;
- ✧ Integrated the skills and prior knowledge gained through academic study and applied them to my internship;
- ✧ Used the new information, methods and experiences gained during the internship to enhance my knowledge;

- ✧ Identified personal skills, knowledge and competencies that intersect with workplace needs.

TA, **College of Science, Mathematics and Technology, Wenzhou Kean University** 02/2021-05/2023

- ✧ Assisted professors to complete teaching tasks;
- ✧ Assisted professors in organizing academic activities, and helped hold the largest academic seminar in the history of Wenzhou-Kean University, attracting more than 300 participants;
- ✧ Helped the Polytechnic Institute to organize academic activities, such as artificial intelligence sharing meetings.

Software QA Engineer, **Beijing DXC Technology** 07/2021-09/2021

- ✧ Responsible for software automated testing, and learning Selenium, etc.;
- ✧ Took charge of functional testing, completed the case description of related functional modules;
- ✧ Communicated and discussed development iteration requirements with developers, and completed user demand statistics.

Extracurricular Activities

President, **Student Ambassador** 04/2023-04/2024

- ✧ Responsible for management and coordination of Student Ambassador;
- ✧ Contacted with other large community organizations to discuss cooperation matters;
- ✧ Responsible for the finalization of major events and public relations issues, and training new student ambassadors.

Student Ambassador, **Wenzhou Kean University** 10/2020-06/2024

- ✧ Completed the school's enrollment mission, took charge of the Campus Tour, and graciously played host to a multitude of esteemed high school principals, Kean University principals, and government officials;
- ✧ Planned campus events such as Open House, Halloween, Rainbow Run, International Cultural Exchange Festival;
- ✧ Worked as a medial leader for multiple events.

Chief Human Resources Officer, **Student Ambassador** 04/2021-04/2022

- ✧ Managed the staff allocation of student ambassadors, participated in the interview of student ambassadors and recruited new students
- ✧ Connected with the admissions office and organized the division of labor for the whole student organization;
- ✧ Responsible for the ambassador's group collaboration and promote internal cohesion.

Center for Student Media and Design 10/2020-06/2021

- ✧ Planned photo exhibitions and school photography activities;
- ✧ Shot photos and edited videos for school official events.

Youth League Committee, **Wenzhou Kean University** 10/2020-06/2021

- ✧ Served as a member of the publicity department to help the school complete the publicity work, and won the excellence award in Water-saving Publicity Competition of the Wenzhou News Network.

Technical Staff, **Startup Grind in Wenzhou** 03/2021-02/2022

- ✧ Resolved technical issues related to the organization's activities;
- ✧ Provided assistance in organizing academic entrepreneurship public welfare sharing events;
- ✧ Offered support for the coordination of the "Asia-Pacific Youth Climate Action" sharing conference.

Other Information

Certificate: Coursera Game Programming, Ali Cloud Artificial Intelligence Assistant Engineer ACA (in progress).

Skills: Java，Python，C#，HTML& CSS.

Other Skills：PPT，Microsoft Office，Xmind，PR, PS, Au.

Interests: Video Editing, Photography.
